

Remarks

This Preliminary Amendment is submitted together with the filing of a Divisional Application. It amends the specification to include a cross reference to a related application and a priority claim, to cancel claims 1-10 without prejudice, since these claims have already been prosecuted and allowed in the parent application, and to add new claims 11-21.

New claim 11 is supported by the specification, e.g., in the Summary of the Invention on page 3 and on page 1, l. 10. New claims 12-21 follow along the lines of the dependent claims in the parent application.

Early and favorable consideration of the claims is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'L. E. Parker', is written over a horizontal line.
